DETAILED ACTION

Election/Restrictions

Claim 5 is allowable. The restriction requirement between species, as set forth in the Office action mailed on 5/12/09, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 10-11, directed to a non-elected species are no longer withdrawn from consideration because the claim(s) require all the limitations of an allowable claim.

However, claims 1-4, directed to non-elected species are withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

This application is in condition for allowance except for the presence of claims 1-4 directed to species non-elected without traverse. Accordingly, claims 1-4 have been cancelled.

Art Unit: 2872

Examiner's Amendment

Pursuant to the partial rejoinder of non-elected inventions as set forth above, an examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Amendment

The claims are amended as follows:

Claims 1-4 have been cancelled.

Allowable Subject Matter

Claims 5 and 8-11 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

With respect to claim 5, though the prior art discloses:

A hologram apparatus comprising a spatial light modulator having a plurality of pixels two-dimensionally arranged therein and irradiating coherent light containing therein page data to be recorded on a hologram recording carrier through said spatial light modulator to record information with an optical interference pattern generated by the coherent light as a diffraction grating, wherein said spatial light modulator comprises a plurality of blocks consisting of m pixels (where m = an integral number) adjacent to each other, and a boundary portion which is provided between the adjacent blocks and has a width having at least the width of one pixel of said spatial light modulator or of one pixel of an image detecting sensor used to reproduce the recorded page data and the distance between the adjacent pixels in each of said blocks, and which shield light; and an encoder for driving said spatial light modulator so as to display a plurality of continuous pixels in a light shielding state as said boundary portion, wherein said encoder groups data to be recorded into blocks per n bits (where $n < m$, and n = an integral number); wherein said encoder generates page data by carrying out two-dimensional modulation for allocating m bit data to each block per n bits by

Art Unit: 2872

referring to a modulation table; wherein said encoder drives said spatial light modulator according to the resulting page data;

the prior art of record fails to teach or suggest the aforementioned combination further comprising:

and wherein said encoder adds boundary portion data for said boundary portion to each of said blocks when generating the page data.

With respect to claims 8-11, these claims depend on claim 5 and are allowable at least for the reasons stated *supra*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
